## 2018 Q2 Highlights

- Operating income significantly influenced by accelerating pulp prices.
- Pulp prices increased over $35 \%$ in 10 months and almost $20 \%$ since end of 2017.
- In addition to pulp, energy prices are substantially up vs previous year.
- Price compensation activities following plan and gradually implemented during second quarter. However, not sufficient to protect gross margin and consequently additional activities planned.
- Organic growth $2 \%$ and following market development.
- Table Top impacted by cost increase from raw materials with decreased margin.
- Meal Service slightly down in the quarter reflecting higher logistic cost and activities to secure supply of key products.
- Consumer almost on par with previous year with an underlying growth in many markets.
- New Markets influenced by costs from structure activities in Singapore in order to meet future volume increases.
- Net sales SEK 1197 m (1 101)
- Operating income SEK 96 m (110)
- Operating margin 8.0\% (10.0\%)

## Market Outlook

- HoReCa market long-term growing in-line with or slightly above GDP.
- In general good development in the HoReCa sector, however slow start in Germany with minor decrease from volume perspective.
- FX rates continue to develop in a more favorable direction for Duni with in general weaker SEK.
- Pulp reaching all time high price levels almost every week in the first half year. Will have a negative effect also in the second half year until additional price compensation measures are in place.
- Unplanned supply interruptions together with increased demand on virgin fibers from China are the main drivers for the very strong increase in pulp prices during 2018. EUR/USD development plays an important role in the development the coming quarters.
- Capacity constraints for key materials replacing plastic based products continue to be a challenge.
